EACH PLAYER gets 19 cards of their color (set dual-color city cards aside).

BOARD SIZE varies by player count:

2P	3P	4P	5P	6P
6×6	7×7	8×8	9×9	10×10

TEAMS are possible using the same rules except teammates combine their scores and a player who runs out of cards wins instantly for their team.

DECIDE turn order before starting.

TO START player 1 place a city card as your first turn. Players use their color cards to build & fight to control the board.

ON EACH TURN place a base card next to any other card **OR** flip over one of your flag cards to promote it to a base.

THEN use flags to mark who controls each of the 4 spots orthogonally next to the base. Cards may not be covered or placed outside the board.

CITY

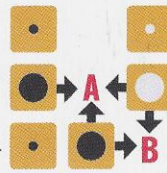

BASE

FLAG

CONTROL a spot by having the most
base cards orthogonally next to it:

A has more black
bases, so place a
black flag there.

B has no majority
so return that
flag to its player.

TO WIN fill the board with more cards
of your color **OR** run out of your cards.
